AUSTRALIAN TECHNICAL ADVISORY GROUP ON IMMUNISATION (ATAGI) RECOMMENDED DOSES AND VACCINES

Note

- ^ There is no separate paediatric formulation of the Moderna vaccine children aged 6 to 11 years receive half the adult dose (50µg in 0.25 mL). ATAGI recommends that providers are vigilant about the potential for dosing errors, including overdosing, with the Moderna vaccine in children.
- * For people aged 16 to 17 years, Pfizer COVID-19 vaccine is the only vaccine registered for use as a booster.

Information current as at 25 March 2022. Detailed information on ATAGI clinical guidelines for administration of COVID-19 vaccines is available at: <a href="https://www.health.gov.au/initiatives-and-programs/covid-19-vaccines/advice-for-providers/clinical-guidelines
